# Sage 300c

A solution that works as hard as you do

Sage 300c will help you work smarter and faster than ever before. Not only can you simplify your everyday tasks, you can take advantage of mobile access from any device. Here's a quick look at how Sage 300c can empower everyone in your organization.

Mobile Access

Everyone aligned

Now your workforce can collaborate—even when they're on opposite sides of the planet

Critical information at your fingertips
Access data and transactions from virtually any mobile device

Increase productivity and shorten the learning curve
Intuitive web screens make multitasking even easier than before

Sales and CRM

Automation made easy

Improved so you can stop wasting your time manually entering info into multiple systems

sage Payroll

sage CRM

sage Intelligence

Connect every department
Integrated with the latest versions of Sage Payroll, Sage Intelligence, and Sage CRM to deliver efficiency and effectiveness

Connect your sales team
Track sales in the field using a range of different apps

Finance

Intuitive database management

Streamlined interface so employees can juggle a range of different tasks at the same time

Save time posting
You don't have to run an entire batch anymore—post invoices, receipts, adjustments, refunds, and more directly from entry screens

Improve tax tracking
Specify a range of fiscal year periods to include in your reports
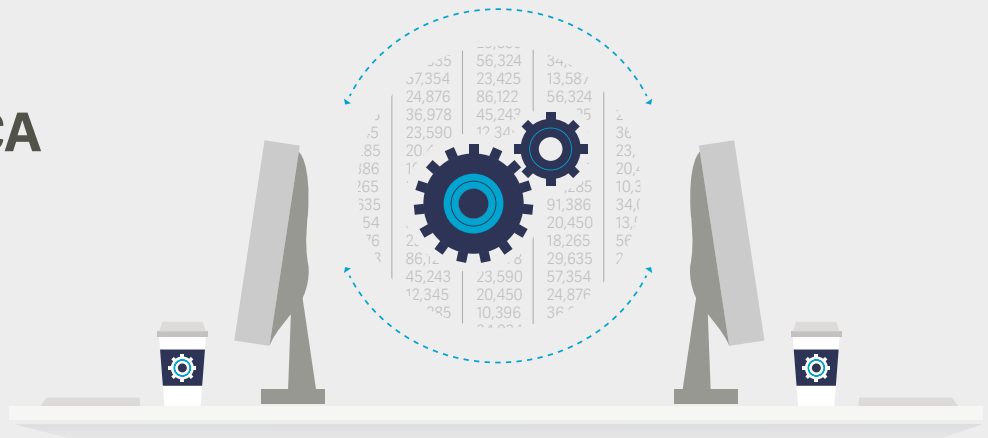

Distribution & Manufacturing

Reduce stock outs and excess inventory
Increase profitability with Sage Inventory Advisor

HR and Payroll

Comply with the ACA

Ensure your company is meeting new Affordable Care Act requirements

Handle payroll a whole new way
Direct integration allows you to upload general ledger account numbers and bank codes to Sage Payroll Services and then download payroll transactions back to your Transaction Journal entry

Customer Service

Connect your people on the front line
Upgraded to integrate with the latest versions of Sage CRM for efficiency and effectiveness

Insight Performance

Save time reporting
Automatically detect missing accounts, any changes to the general ledger and more

Keep tabs on critical information
Create custom dashboards specific to your business with easily accessible KPIs
